CONTENT CREATION FORM P1

Use this form to tell us about the basic details of your show technical requests, so we can contact you with a quote. Please ensure you fill out all details as best as you can to give us a clear idea of the details. This can include a technical specification you would normally use with your theatre shows. If possible, please include a stage layout plan. If you feel you have any more details which would help us, and we haven't asked about here, please use the notes section below or include your own pages to the return.

We prefer for you to bring your own equipment for sound along with your engineers for the ease and speed of mixing. All we would require is a balanced Stereo signal to mix with the camera footage. Basic lighting is provided but extra lighting can be added to your quote by request.

If you would like to create content ready to stream your show, please complete this form, sign and date it and then return it to: admin@showshome.co.uk
